

Grain cut floor

The mafi Domino collection adds grain wood floors made of Larch and Ash. Inspired by old workshop floors, this floor shines through enormous durability and incomparable colours.

The individual blocks are fixed to an installation net and are available in 40x20cm dimensions. The individual units are then laid on top of each other, like tiles. Thereafter, the entire surface must be sanded in order to level out any irregularities or edges.

The mafi Domino floors are delivered raw and need to be oiled after installation. This additionally allows the floor to be individualised.
