

Dot-Ordering System

We have brought the delivery times exactly to the point. No other floor manufacturer can deliver your custom made floor quicker! You will find our products marked in the pricelist with the following notes:

- green dot: Your personal mafi natural wooden floor is on its way to you after the 4th working day. (Please note the order cut-off time on your personal delivery calendar).
- yellow dot: Your personal mafi natural wooden floor is on its way to you after the 10th working day.
- red dot: sampling and delivery time on request, depending on the raw material. This doesn't necessarily mean than red dots automatically have longer production times, but only have non-regular stored raw materials.

*Attention: Order Quantity more than 300m² per wood type = RED DOT
